How It Works...

1. Gather up all your no-longer-used sporting goods, sports equipment, and apparel. Then...
 - Call Consignment Sports to schedule a FREE local pick-up (within 10 miles of store), or...
 - Take it all in to Consignment Sports, no appointment needed. An estimator will be with you promptly. Or...
 - In a hurry? Download our "Quick Drop" form from our website, fill it out, bag up your gear and drop it all off at the store during open business hours. An estimator will email your options later in the day.
2. Our Estimator will carefully go through your gear and separate it into two piles; one pile we will accept, and one pile we will return to you, or, donate it for you at our local charity organization.
3. Our Estimator will then determine a selling price for each item based on our optimal pricing criteria, and present to you our three pay-out options. You simply choose which pay-out option works best for you. It's that easy!

CONSIGNMENT OPTION

<u>Item Selling Price</u>	<u>You Are Paid</u>
Apparel/Footwear	40%*
\$ 1 - \$50	50%*
\$ 51 - \$100	55%*
\$ 101 - \$200	60%*
\$ 201 +	65%*
\$ 201 + (Surfboards)	70%*

* 5% of the selling price will be deducted from consignor pay-out amount if item(s) need cleaning or minor repair before displaying. Apparel must be clean and current fashion design.

Consignors check our website on the 1st day of each month to see if any items sold the previous month. A cheque can be picked up at store, or will be mailed out after the 11th day of the month less \$1 from consignors' pay-out amount if mailed.

CASH BUY-OUT OPTION

Get top dollar cash on the spot for all your gear without any haggling or low-balling!

TRADE-IN OPTION

Make a little more than the Cash Buy-Out option and use the credit towards a purchase in the store, or save the credit to use at your next visit, or anytime thereafter.

HOW WE DETERMINE THE SELLING PRICE OF AN ITEM

One of our knowledgeable Estimators will determine a selling price for each one of your items based on the following criteria:

- Current market demand
- Condition/wear & tear/appearance of the item
- Competitive online price
- Age of the item
